ENCLOSURES.

SIR,

S.N.18 (B)

With reference to your endorsement No.4276/214-1929, dated 26th May 1930, I have the honour to state that it is not possible to curtail or reduce the expenditure under the head "46. Stationery and Printing--Mysore Residency Press" consistent with the efficiency of the Press. Since 1926 the volume of work of this Press has increased very much without any corresponding increase in the strength of the establishment. The Examiner of Govt. Press Accounts has also pointed out in para 6 of his last Inspection Report dated 4th July 1929 that "the work of the Press has increased considerably during the past two years, and the present Manager has been doing his best to cope with the increased work with the existing staff and to carry it out in a highly efficient manner".

Survey of Five Year Programme.

Sir,

S.N.19 D

With reference to your letter No.4277, dated 26.5.30 regarding the curtailment or reduction of expenditure sanctioned under the Five Year Programme, I have the honour to state as follows:-

2. The various items of expenditure, recurring and non-recurring, sanctioned by the Government of India in their letter No.203-I/26, dated 4.3.1927 (Foreign and Political Department) were as follows:- (Vide Enclosure.)

S.N.11 83/26 (X)

There is no necessity to repeat any of the non-recurring grants after the year 1931-32, and so the remarks will be confined to the recurring expenditure.

Item I-raising of 3 Primary schools to the Higher Elementary standard. The 3 schools have been raised to the VIII standard and have proved to be of great advantage to poor pupils who cannot afford to join Secondary schools. The strength in the 3 standards is gradually increasing and since there is a real demand for the classes there can be no retrenchment under this head.

Item II: Opening of 12 new Elementary Schools: Six Boys' and six Girls' schools will be opened by the end of 1931-32. Thereafter the cost of the Boys ' schools will be about Rs.

trained graduate or an Intermediate trained lady teacher with a knowledge of Urdu is appointed, so that she might be put in charge of all the girls' schools - muhammadan as well as non-muhammadan - under the Municipality.

3. The Government of India have laid down, as a cardinal principle, that the duty of removing illiteracy among the masses devolves on local bodies,-Municipalities, Local Boards &c.,. Primary education has, therefore the first claim on the funds of a Municipality which is expected to spend up to a limit of 15% of its income. In the case of rich Municipalities like Madras, the Commission maintains both the Boys' and Girls' schools, but where a municipality finds it difficult to do this, Government takes direct charge of girls' education, and the entire cost of Boys' education devolves on the municipality. The expenditure incurred by the Municipal Commission, Civil and Military station, is about Rs. 59,700/-per annum, (excluding Government grants but including grants to - charitable associations &c.,) which is about 10% of the Municipal revenues. I do not think that the Commission will find it difficult to increase its expenditure by about Rs. 17,000/- and accordingly make the following proposals:

(a) Higher Elementary Schools (Hafizia muhammadan, and Ookadapoliem)to be financed by the Municipal Commission at an annual cost of Rs. 3000/-. With regard to the Higher Elementary School at Blackpalli, I find that it is necessary to convert it as the practising section of the Government Training school. With this view I propose that Government continues to pay this cost of the Higher Elementary section. I am in correspondence with the President, Municipal Commission, and shall submit further proposals on this matter after I receive his reply.

(b) Opening of 12 new Elementary schools: The six boys' schools to be financed by the municipal Commission and the 6 girls' schools by the Government. The cost of the boys' schools will be Rs. 14,000/-per annum and the Girls' schools about Rs. 10,000/-.

(c) The 5 Night schools to be abolished.

(d) The Grants-in-aid to Non-Government Primary schools

The various items as modified by the Government of India in the Pre[illegible]aragraph is as follows.

SIR,

Five-Year Programme of Educational Expansion in the Civil and Military Station of Bangalore.

S. N. 4
83A-26.

With reference to para 3 of your letter No.3983/83A-1926 dated the 14th May 1930, on the above subject, I have the honour to inform you that the Municipal Commission, who considered the matter at their Ordinary Meeting held on the 28th November 1930, are of opinion that, with the exception of the items referred to by the Inspector of Schools in his letter dated the 10th September 1930, viz. 5 night schools (copy enclosed), the rest of the commitments are necessary and should be continued on a permanent basis. The observation of the Inspector of Schools in his letter quoted above that the Municipal Commission have resolved to appoint a Lady Superintendent from their own funds is not correct. The Municipal Commission's resolution is that the appointment which is paid for from the funds placed at their disposal towards the Five-Year Programme should be continued on a revised scale.

2. The Commission feel that they cannot find further money for educational purposes and request that the Hon'ble the Resident will be pleased to continue, if not enlarge, the Government Grant in the future to permit of the further expansion of primary education in the Station.

3. A copy of the Commission's resolution is enclosed.

I have the honour to be,
Sir,
Your most obedient servant,

Copy of Letter No.3124/3-26 dated the 10th September 1930 from F. F. C. Edmonds Esq., M.A., B.Sc., Inspector of Schools, Coorg and Bangalore, to The President, Municipal Commission, Civil and Military Station, Bangalore.

CURTAILMENT OF 5-YEAR PROGRAMME.

I have the honour to state that I have proposed to the Secretary to the Hon'ble the Resident that the five Night Schools be abolished. The Municipal Commission having resolved to appoint a Lady Superintendent from its own funds, there is no necessity for the post under the Five-Year Programme to continue. Apart from these two items, I am of opinion that all the other items are necessary and should be continued. The Higher Elementary Classes in the three Municipal Schools at Blackpally, Cokadapolyam and Cockburn Road (Hafizia Muhammadan) and the New Primary Schools that have been opened have justified their existence and it will, I am afraid, cause grave discontent in the localities concerned if we should close down the schools or classes.

Retrenchment of expenditure.

Sir,

S.N. 17. I have the honour to refer to your letter No.F.133-A/30, dated the 2nd May, 1930, directing that an examination may be undertaken, without delay, of the practicability of retrenchment in all branches of expenditure under my control with a view to definite suggestions for the curtailment or reduction of expenditure being furnished urgently to the Government of India, as far as possible.

2. The following budgets are under my control:-

(1) Bangalore Civil and Military Station Budget.

(2) Mysore Residency budget.

Item (1).

S.N. 135 211-Confl. Please see S.N. 1. 59-25. In accordance with the arrangement contained in your letter No. 1541-A, dated the 7th January, 1925, for the determination and disposal of the surplus revenues of the Assigned Tract, any surplus revenue in excess of Rs.13 lakhs shall be divided between the Tract and the Mysore Government in the proportion of ¼th to the former and ¾ths to the latter. It is also laid down in that letter that the datum line scheme shall have effect from the year 1924-25 and shall remain in force for a period of ten years i.e. up to the end of the year 1933-34. The expenditure in the Civil and Military Station was subject to a detailed enquiry so short a time ago as June 1925 and the

the administration is carried on on economical lines. It does not appear possible, having regard to the needs of the almost urban conditions, to make any reductions. Moreover no retrenchment made in the Assigned Tract will in any way benefit the Central Revenues, as the surplus over the datum line is divided between the Assigned Tract and the Mysore Government.

Item (2).

A statement justifying the continuance of the expenditure incurred under each major head in the budget estimates of the Mysore Residency is submitted. The Residency budget is very small and there is no part of it which has any measure of elasticity. Indeed, it is only by the exercise of rigid economy (indeed, it would not be untrue to add by some sacrifice of efficiency) that the expenditure can be kept within the present limits. The total estimated expenditure of the Mysore Residency for the year 1930-31, under the head "29-Political" is Rs.2,25,800/- of which 2/3rds viz. Rs.1,50,534/- is debitable to Central Revenues and 1/3rd viz. Rs.75,266/- to the Assigned Tract Revenues.

3. A reduction of Rs.750/- per annum can be effected in the grants made under the five year programme, as it is proposed to abolish the night schools opened under that programme with effect from the 1st April,1931. The Government of India are being addressed separately in the matter of continuance of other grants under the five year programme.

(1) The Hon'ble the Resident in Mysore,
(2) The Secretary to the Resident,
(3) The Assistant Secretary to the Resident,
and (4) The Residency Surgeon, Bangalore.

The Resident in Mysore is also Chief Commissioner of Coorg and in both his official capacities has direct relations with the Government of India. The Secretary to the Resident is also the Secretary to the Chief Commissioner of Coorg. The work connected with the administration of Coorg does not come before the Foreign and Political Department but before the Home Department and certain other departments of the Government of India. Though Coorg is a small area the work which arises out of its administration is considerable owing to the fact that it has the status of a province and has a Legislative Council. Coorg in the passing of time has ceased to be the isolated and somnolent backwater, which it formerly was and the work entailed by it has increased of recent years. The whole of the work of the Coorg administration in all its branches which comes before the Chief Commissioner is dealt with by the Secretary. The same remark applies in the case of the work of the Civil and Military Station, which comes before the Resident as the head of the local administration and the dealings of the Resident, as the representative of the Government of India in the Mysore State, with the Government of Mysore. The volume of work to be dealt with is sufficient to keep the Secretary fully occupied and its variety and frequently complicated nature render it necessary that he should be an officer of some experience and length of service in the Political Department. In addition to his secretarial duties the Secretary performs the duties of Inspector General of Registration, Registrar of Joint Stock Companies and Commissioner of Income-tax for the Civil and Military Station of Bangalore. The necessity for the appointment of an Assistant Secretary to the Hon'ble the Resident has been explained fully in the Hon'ble Mr. Peers' letter No. 8344/68-1919, dated the 1st October, 1929. 4/9ths of the cost is debited to Central Revenues, 2/9ths to Assigned Tract

revenues and 3/8ths or 1/3rd to Coorg revenues. The Residency Surgeon is in administrative and executive charge of the Bowring and Lady Curzon Civil Hospitals in the Civil and Military Station which rank high among similar institutions in India both as regards size and up-to-date methods of treatment. These hospitals are valuable training centres and nothing should be done to weaken them in this respect. He is also in charge of the Isolation Hospital. It is essential, therefore, that the Residency Surgeon should be an officer of standing and experience and also that he should be a thoroughly capable surgeon in view of the amount and variety of surgical work which has to be performed. He is also an ex-officio member of the Station Municipality in which capacity he is responsible for the sanitation of the Station and the efficiency of the medical administration on the civil side.

(6) The establishment noted on the margin perform the work of the Resident's office, the Resident's Treasury and the office of the Residency Surgeon. The Resident's Office establishment consists of one Superintendent (250-350), one Confidential Assistant (250-350), one Head Clerk (200-250), one second clerk (150-200), one Record Keeper (100-150), one Budget and Accounts Clerk (100-150), one Cashier (100-150), one Residency Clerk (35-100) and 10 Clerks (35-100), one Darogah (30-40), 1 Record Attender (25-35) and servants 24. The establishment of the Resident's Treasury consists of one Head Accountant (125-150), Deputy Accountant (80-100), 1st Assistant Accountant (60-80), 8 Clerks 8(35-55), one Treasurer (80-100) and one Shroff (30-35) and 5 servants. The Residency Surgeon's office consists of 1 clerk (25-65), and two peons 2(15).

As regards the strength of the Residency Office establishment, a reference is invited to the remarks contained in the Hon'ble Mr.Pears' letter No. 8344, dated the 1st October,1929 and in my express letter, No.9500, dated the 11th December,1930. After further experience of the work falling upon this establishment, which has in no way decreased since the above letter was written, the Resident is satisfied that at the moment no reduction of establishment is possible if the work is to be kept up to date and carried out efficiently and expeditiously. The establishment does not seem to be unduly large when compared with the office establishments of other Residencies, Hyderabad in particular where

(17) Under orders of the Government of India refunds of customs duty on arms and ordnance stores supplied to the Government of Mysore are made. No reduction can therefore be made under this item.

(16) The Residency Press establishment consists of one Manager (175-225) plus special pay (25), one Foreman (75-100), one Assistant Foreman (50-75) one Computor (35-55), one Clerk & Store-keeper (35-55) one Reader (35-45) plus special pay (5), one Copy Holder (25-35), 14 compositors 3(35), 3(30), 3(25), 3(20), 2(15), & 2 impositors 2(15), 4 pressmen 1(35), 1(30), 1(25), 1(20) and 1 Peon 1(15).

This is a Central Government Press and executes printing and binding work for this Residency, Civil and Military Station, Bangalore, Coorg and other Central Government offices in all parts of India.

According to the accounts maintained in the Press it is self-supporting. The total expenditure of the Press and the cost of printing and binding work done for the last 3 years are given below:-

	Total expenditure.	Cost of printing & binding work done at the Press.
	Rs.	Rs.
1927-28.	17,169	18,442
1928-29	17,814	19,953
1929-30	18,675	19,931

The Press is already undermanned and the question of increasing the strength of the Press establishment has been considered and necessary provision for additional establishment made in the budget for 1931-32. But the Government of India have deferred the consideration of the question for the present.

The sum of Rs.36,100 represents the grants paid from Central revenues to the Municipal Commission, Civil & Military Station, Bangalore under the five year programme. This is intended for the following:-

	Rs.
Recurring.	
(1) Raising of 3 Primary schools under the Municipal Commission to the middle standard.	4,526
(2) Opening of 12 new elementary schools under the Municipal Commission.	20,830
(3) Opening of five night schools under the Municipal Commission for adults at Rs.150/- a year for each school. (Provides for only 4 schools)	600
(4) Appointment of a Lady Superintendent of girls' schools under the Municipal Commission.	828
	26,644
Non-recurring.	
(5) Building grants to Municipality for construction of new schools.	10,600
Deduct:- Probable savings.	-1,344
Total.	36,100

The question of continuance of the grants under items 1,2 and 4 is being considered separately and proposals will be submitted to the Government of India shortly. Item 3. These schools have proved a failure. The attendance is very meagre and bona-fide day labourers do not attend regularly and willingly. Boys who ought to be in day schools are prevailed upon to join these schools to keep up the attendance. It is therefore recommended that the schools be closed with effect from the 1st April, 1931. The savings under this head in future years will be Rs.750/- per annum i.e. 150 x 5 = 750.
